

EXACT PIPECUT+BEVEL 460 PRO SERIES

Pipe Cutting- and beveling machine

PipeCut+Bevel 460 Pro Series

Exact PipeCut+Bevel 460 Pro Series is a cutting and beveling machine for water and waste water pipes. Cutting+beveling is carried out simultaneously in a single operation. Suitable for cast iron and plastic pipes. Equipped with the best diamond disc on the market, which can not only cut but also bevel.

The PipeCut+Bevel 460 is identical to the PipeCut+Bevel 360 model, but is also suitable for larger pipe dimensions.

Properties

- Cutting and/or beveling of several types of pipes in one step
- Integrated laser for perfect cutting
- Optical display for optimum worker guidance
- Also compatible with standard saw blade, for normal cuts

Part No.	RG300099
Weight	18,5 kg
Range of use	100 - 460 mm
Max. pipe wall	Cutting: 20 mm Cutting & beveling: 35 mm
Cutting	All materials
Cutting & beveling	Cast iron, Ductile, Plastic

Technical data

Voltage / Power	220-240V 2.500W 12A
No-load speed	1.900 / 2.885 rpm
Ø Blade diameter	148, 150, 165, 180 mm
Mounting bore	62 mm

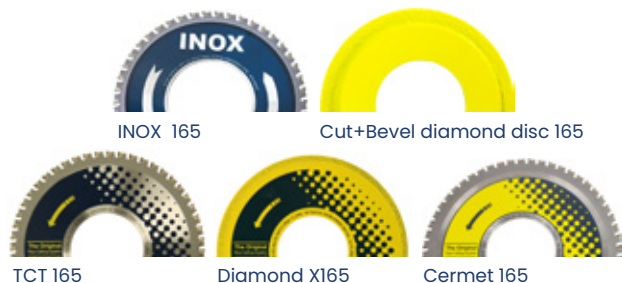

Scope of delivery

PipeCut+Bevel 460 Pro Series, TCT 165 blade, Cut+Bevel diamond blade with corresponding saw blade cover, carrying bag, 3 x pipe supports, operating instructions, 5 mm & 2 mm hexagon socket.

Matching saw blades

Different materials can be professionally cut with the optionally available saw blades...
E.g. with an INOX saw blade for stainless steel cuts.

Solutions for many pipe machining processes.
